

Most tested. Most awarded. Kaspersky protection.*

During period of 2013-2023 Kaspersky products participated in 927 independent tests and reviews.
Our products were awarded 680 firsts and achieved 779 top-three finishes.

MOST TESTED*
MOST AWARDED*
KASPERSKY PROTECTION
[*kaspersky.com/top3](https://kaspersky.com/top3)

* Notes:

- According to the independent test results of corporate and consumer products during 2013-2023.
- The summary includes independent tests conducted by: AppEsteem, AV-Comparatives, AV-TEST, Dennis Technology Labs, ICSSA Labs, Matousec, MRG Effitas, NSS Labs, PCSL, SE Labs, Testing Ground Labs, The Tolly Group, Virus Bulletin.
- The performed tests assess protection technologies against known, unknown and advanced threats.
- The bigger the circle, the more often the company's solutions ranked first in independent tests.

TOP3 metric reflects how successful a vendor was in independent comparative tests within a calendar year.

The main characteristic of success is a **TOP3 score** that shows how many times a vendor with its products gained the first, second, or third place in independent tests they participated in within a reported period. **The TOP3 score** is calculated by dividing a vendor's **TOP3 counter** by a vendor's **Participation counter**.

The TOP3 score is determined for each participating vendor separately and then compared to each other.

- 1. Depending on a test, final test results may vary from giving awards for participating vendors to providing only a list of their detection rates and false positives.
A vendors's **TOP3 counter** is incremented either for winning an award or ranking in the first three places in a test. It cannot be incremented both for receiving the award and one of the first three places.
Several vendors can achieve equal results in detection rates, or summary results, or win awards of the same grade. In this case, the vendors share the same place in the same test.
In case of detection rates or summary results, the place of a vendor with the lower result is calculated as "number of higher ranked vendors + 1". For instance, the sequence "1,1,2,3" is not possible, whilst "**1,1,3,4**", or "**1,2,2,4**", or "**1,1,1,1,6**" are . In the latest sequences TOP3 counter will be incremented for bolded vendors only.
In regards with awards, refer to rule clarifications listed in the tests description below.
- 2. A vendor's Participation counter is incremented each time one of its products participates in a test/review/overview.
In some tests several products of one vendor can participate in the same test. In those cases, since all products increment the vendor's Participation counter, the Participation counter can be higher than a total number of tests.

Only those who participate in 35% or more of the total number of tests have their results represented in the chart.

The deadline for submitting scores attained in 2023 is February 1st , 2024, with no option to add any test/review after this date.

Among the security vendors participating in the TOP3 measurements are: Avast, AVG, Avira, Bitdefender, Broadcom (Symantec), ESET, WithSecure (F-Secure), G DATA, Kaspersky, McAfee, Microsoft, Sophos, Trend Micro. A complete list of participants appears at the end of this document.

	N of tests	N of TOP3	Score of TOP3 places (%)	N of 1st places
Kaspersky	927	779	84%	680
Bitdefender	769	489	64%	430
Broadcom (Symantec)	557	339	61%	230
ESET	607	337	56%	260
Avira	492	269	55%	231
Avast	657	318	48%	276
Sophos	424	195	46%	149
Trend Micro	695	288	41%	247
AVG	517	210	41%	191
G DATA	443	179	40%	171
Microsoft	549	175	32%	132
McAfee	638	202	32%	169
WithSecure (F-Secure)	480	146	30%	121

2013-2023 TOP3 metric description

3

The tests included into TOP3 metric for each separate year, as well as their distribution by various types of threats, including advanced threats, and test types, are listed in the corresponding PDF documents:
